

## References

Note: This reference section is provided as a working bibliography for Paper A-11. It includes both internal CUWF sources and foundational references from standard physics that support the conceptual background of the paper. Internal CUWF entries may be updated later with final author, date, and document metadata.

--Techasamran, C. (2025). Chayut Universe Wave Function (CUWF) Paper A: Foundational architecture of the still wave framework. Independent manuscript.

--Techasamran, C. (2025). Chayut Universe Wave Function (CUWF) Paper A-3: Entropic geometry and emergent structure in the CUWF framework. Independent manuscript.

--Techasamran, C. (2025). Chayut Universe Wave Function (CUWF) Paper A-5: Entanglement — entropic synchronization and collapse-link topology without signaling. Independent manuscript.
