

References

Paper C — From Abstract Imagination to Mathematical Equation & Experimental Realization

The following reference list is prepared for Paper C of the Chayut Universe Wave Function (CUWF) series. It combines standard foundations in general relativity, quantum mechanics, quantum field theory, entropy, collapse and decoherence, entanglement, emergent geometry, cosmology, and experimental platforms, together with internal CUWF series references. Internal CUWF papers are listed as forthcoming works where appropriate.

A. Foundational Geometry, Relativity, and Gravitation

Einstein, A. (1916). Die Grundlage der allgemeinen Relativitätstheorie. *Annalen der Physik*, 49, 769–822.

Riemann, B. (1854/1873). On the hypotheses which lie at the foundations of geometry. *Nature*, 8, 14–17, 36–37.

Weyl, H. (1918). *Raum, Zeit, Materie*. Berlin: Springer.

Wheeler, J. A. (1962). *Geometrodynamics*. New York: Academic Press.

Misner, C. W., Thorne, K. S., & Wheeler, J. A. (1973). *Gravitation*. San Francisco: W. H. Freeman.

Wald, R. M. (1984). *General Relativity*. Chicago: University of Chicago Press.

Hawking, S. W., & Ellis, G. F. R. (1973). *The Large Scale Structure of Space-Time*. Cambridge: Cambridge University Press.

Hamilton, R. S. (1982). Three-manifolds with positive Ricci curvature. *Journal of Differential Geometry*, 17(2), 255–306.

Perelman, G. (2002). The entropy formula for the Ricci flow and its geometric applications. arXiv:math/0211159.

B. Quantum Mechanics, Quantum Foundations, and Measurement

Planck, M. (1901). Über das Gesetz der Energieverteilung im Normalspektrum. *Annalen der Physik*, 4, 553–563.

Einstein, A. (1905). Über einen die Erzeugung und Verwandlung des Lichtes betreffenden heuristischen Gesichtspunkt. *Annalen der Physik*, 17, 132–148.

Bohr, N. (1928). The quantum postulate and the recent development of atomic theory. *Nature*, 121, 580–590.

De Broglie, L. (1925). Recherches sur la théorie des quanta. *Annales de Physique*, 3, 22–128.
